The entrance to our venue is polished glass, and automated and non-automated glass doors lead into the foyer. It is advised that young children are accompanied by a teacher, parent or guardian when entering the foyer through the automated doors.

The foyer flooring is polished cement and can become slippery during wet weather. It is strongly advised that all visitors wear non-slip footwear.

EVACUATION PROCEDURES

We have an evacuation plan in place and all our Front of House and Box Office staff are trained in accordance with the plan.

FIRE PROTECTION SERVICES

Fire extinguishers are located on each level of our venue and their positions are clearly labelled. Fire hoses are located on each level of our venue near the green rooms and their positions are clearly labelled.

All areas of our venue are covered by sprinkler systems activated by heat. When activated, these systems automatically transmit a fire alarm via Telstra phone lines to the NSW fire brigade, and give out dispersed sprays of water to control fire.

However, these sprinkler systems are sometimes slow to operate, and should not be solely relied upon to quickly put out a fire or to alert the fire brigade. If there is a fire, call the fire brigade immediately on 000 (or 0-000 from internal phones in our venue). Security officers from the University of Sydney are also available 24 hours a day to assist with emergencies, and can be contacted on (02) 9351 3333 (or 13 333 from internal phones in our venue).

Security officers from the University of Sydney also hold first aid certificates and are available 24 hours a day to assist with first aid requests. They can be contacted on (02) 9351 3333 (or 13 333 from internal phones in our venue). Our Front of House team can also quickly contact security officers via radio.
